A CONVERSATION THAT MATTERS

SOHA is hosting this special and highly focused debate featuring Mayor Karen Bass and Fourth District Councilmember Nithya Raman. This will not be a "circus-style" debate. In a time when political forums can often feel crowded, chaotic, and more performative than productive, we decided to be different. We invited only these two leaders because they represent Sherman Oaks on two critical – and complementary – levels of government. This allows for deeper, more meaningful discussions about issues that directly impact our neighborhood and our city – an opportunity to dig into the substance – public safety, homelessness, infrastructure, city services, and LA's overall direction. This is one of the most important elections our city has faced in years – a pivotal moment.
